We all love it: our Swiss chocolate! It does not have its origin in the European world of pleasure, but was produced in South America thousands of years ago - bitter and unsweetened. Cocoa was the sacred drink of the gods; it only became a trendy drink at the Spanish court in the 16th century. But in Europe we forget the mystical origin just as easily as the fact that the cocoa for Swiss chocolate does not grow in the Alpine Republic, but is grown and harvested far away from our affluent society in West Africa under sometimes precarious conditions.
